Dear Andrew,

At this time I'm requesting the name or names of the owners who you allege have made this claim below?

'Scott,
I just found out this isn't the first time this happened.
Another lot owner was walking and the dogs came out
aggressively. The female called the dogs and again they
didn't listen or retreat. Someone is going to get hurt. The
dogs must be controlled at all times if they are going to
be here.
